

3D Origami- 9 Weeks Project

You need to make rectangles that are 2 1/2 by 1 inch. LOTS OF THEM (waaaay more than 500)...

You can make them out of any paper but remember the size is VERY important.

For partners, the height requirement goes as follows -

For a D, the bowl has to be 7 inches tall

For a C, the bowl has to be 8 inches tall

For a B, the bowl has to be 9 inches tall

For an A, the bowl has to clear 10 inches

For a solo project, the height requirement goes as follows -

For a D, the bowl has to be 5 1/2 inches tall

For a C, the bowl has to be 6 1/2 inches tall

For a B, the bowl has to be 7 1/2 inches tall

For an A, the bowl has to clear 8 1/2 inches tall

Bowls will also be graded on the following -

@ Pieces must be uniform in size: 1-2 letter grade subtraction if not

@ Height Check: progress week to week, grade will drop if not;

@ Overall Neatness: Pieces need to be neat, nothing too out of place, uniformity, straight - 1-2 letter grade drop

DUE MARCH 24 WITHOUT FAIL!!! If it is NOT in my grade book by that day it will be a straight ZERO!!!
